Susan C. Colver Lectureship Fund

The late Mrs. Susan E. Rosenberger, with her husband, Jesse L. Rosenberger, of Chicago, endowed the "Susan C. Colver Lectures" in honor of Mrs. Rosenberger's mother by giving certain securities to the School. The lecture for 1926-27 is given by Mr. Ralph Clarkson, Chicago.

Situation

Mt. Carroll, a town of 2,000 people, situated in northwestern Illinois, ten miles from the Mississippi River, is attractively located among picturesque hills. The neighborhood is justly celebrated for its beauty and healthfulness. Mt. Carroll is the county seat of Carroll County, and is exclusively a place of residence. The absence of mines, factories, or great industrial enterprises makes the community an ideal one for an educational institution.

Mt. Carroll is on the Omaha Division of the Chicago, Milwaukee & St. Paul Railway, 128 miles west of Chicago. It is accessible also by automobile over the Lincoln Highway to Dixon and State Highway No. 27 from Dixon to Mt. Carroll.

Aim

The School is not an experiment; it is now educating the fourth generation of young women. The work of the School is accredited by the North Central Association of Colleges and Secondary Schools, which means that its academic graduates are admitted without examination to all colleges and universities which admit on certification. The academic course of study is also compre-

hensive and thorough enough to meet the needs of those preparing for the examinations of the College Entrance Board. The graduates of the Junior College are admitted to the Junior year of leading mid-western and western colleges and universities without examinations.

The purpose of the School, however, is to train its students for life rather than for any particular college or vocation. It seeks to develop strong minds in strong bodies, to give a background of knowledge, to create tastes and standards of value, to instill principles of conduct that are worthy and Christian,

and to inspire, through instruction and training, ideals that are democratic and altruistic, to the end that its students may realize their obligation to make some individual contribution to the common welfare.

History

The School, founded in 1853, and known for forty-three years as Mt. Carroll Seminary, was transferred in 1896, by the wish of the founder, Mrs. F. A. W. Shimer, to a Board of Trustees of fifteen members, representing the University of Chicago, the alumnae of the Seminary, and the citizens of Mt. Carroll.

The hundreds of graduates and pupils of Mt. Carroll Seminary are included as graduates and pupils of the School, and the large constituency, with traditions of culture and Christian service gained in more than seventy years, furnishes a constant source of support.

Equipment

Frances Shimer School has the advantage of over seventy years of history, experience, and traditions; yet its equipment is entirely modern, having been rebuilt and enlarged since 1903. The eleven buildings, solidly constructed of brick and stone, are heated by steam, lighted by electricity, and furnished with modern conveniences. Each building was erected and equipped for the purpose it serves in the educational aims of the institution.

Dearborn Hall

(1903)

This building for Instrumental and Vocal Music contains practice-rooms with eighteen pianos, and rooms for instruction. The building is named for Mrs. Isabel Dearborn Hazzen, formerly head of the Department of Music for over twenty years.

Hathaway Hall

(1905)

Hathaway Hall was named for Mrs. Mary L. Hathaway Corbett, of the class of 1869, a sister of Mrs. Hattie N. LePelley, a former Trustee of the School, who gave liberally toward the erection and furnishing of the building. The basement contains a modern gymnasium 87×36 feet, with shower-baths and toilets. The three upper floors contain parlor, rooms for forty people, baths, and trunkroom. The parlor was furnished by the Mt. Carroll Seminary and Frances Shimer School Association of Chicago. Adequate fire protection is secured by a standpipe, with hose connections on each floor, and fire escapes on each end.

West Hall

(1906)

West Hall is a well-equipped home for fifty people. It is 154×40 feet. On the ground floor is the lounge, 38×50 feet, with fireplace. The studio is on the upper floor. Standpipe, with hose on each floor, and fire escapes are provided, with ample stairways in addition. Bathrooms are on all floors where pupils reside.

Metcalf Hall

(1907)

Metcalf Hall, to which Andrew Carnegie contributed \$10,000.00, is 107×44 feet, native stone and sand-mold brick, two stories and mezzanine story, with tower and finial 100 feet high. The building contains offices, cloakrooms, recitation rooms, and auditorium. The auditorium is equipped with stage, curtain, and other facilities for school plays. The walls are adorned with pictures presented by various classes and individuals illustrating different periods of art and architecture, and including, among others, a plaster cast of a part of the frieze of the Parthenon, large photographs of the Roman Forum, the Parthenon, the Cathedral of Florence, Michelangelo's "Jeremiah," the Cathedral of Amiens, Rembrandt's "Syndics," Dürer's "Saints Mark and Paul," and St. Peter's Church.

The building is named in honor of Mrs. Sarah Metcalf, a lifelong friend of the School, whose son, Dr. Henry S. Metcalf, was long president of the Board of Trustees.

College Hall

(1909)

College Hall is modified colonial, 90×40 feet, three stories, with basement and attic. The ground floor consists of a drawing-room, 40×32 feet, broken by Corinthian columns, a broad, spacious reception hall, a parlor, a dining-room and service kitchen. The second and third floors contain rooms for about forty pupils and teachers. The building furnishes a home for College girls and social facilities for the use of the entire School.

Power Plant and Laundry

(1911)

The building is brick on concrete foundation, 80×56 feet. In the steam plant are installed two eighty-horse-power tubular boilers. These boilers are served by two Jones's underfeed stokers. The plant maintains a pressure of steam in the radiators in rooms and halls throughout the institution.

The laundry, which occupies a third of the building, is equipped with modern laundry machinery.

The School Infirmary
(1913)

The infirmary is 43×36 feet, red pressed brick and stone trimmings, with concrete foundation. It is one story high, with concrete, covered porch. The building contains a nurse's reception room, two wards, two completely equipped bathrooms, two rooms for nurses, a kitchen, in addition to hall and linen closets.

Science Hall
(1914)

Science Hall is a building of stone and brick, two stories and basement, 78×44 feet. The basement contains gas machine, hot-water heater, facilities for hand laundry for use of pupils, and storeroom. The main floor is given chiefly to Home Economics and Household Art.

The upper floor contains the chemical laboratory, 32×18 feet, with chemical work tables of latest design, well equipped for the use of sixteen pupils.

The physics laboratory, 18×28 feet, is equipped with a demonstration table, with electric, gas, and water connections. The laboratory is intended to accommodate ten pupils working at one time, and the supply of apparatus fills all needs for experiments.

The Biology laboratory, which extends across the west end of Science Hall, is a large room with windows on three sides. A closet for laboratory supplies adjoins. The laboratory contains a stone-topped working bench which is fitted with gas and water, and has also five large laboratory tables with drawers. It is well equipped with compound microscopes, dissectingscopes, slides, and Jewell models.

William Parker McKee Hall
(1922)

William Parker McKee Hall (112×40), built by funds contributed by the Baptist Board of Education, of red pressed brick with stone trimmings, is four stories high. The ground floor contains the dining-room, serving-room, and kitchen. The other floors have a parlor for the use of the students, a suite of rooms for the Dean of Women, a kitchenette, ample bathrooms, and rooms for fifty-six students and teachers. This building furnishes an additional home for College girls, and a dining-room for the entire School. This building is named for William Parker McKee in honor of the completion of twenty-five years of service as Head of the School. A portrait of the President by Ralph Clarkson, contributed by trustees and former students, hangs in the dining-room.

Campbell Memorial Library
(1925)

Campbell Memorial Library was erected during the year 1925 by funds furnished in part by Mr. George D. Campbell and Mr. S. J. Campbell of the

THE FRANCES SHIMER SCHOOL

Board of Trustees, and by Miss Jessie Campbell, '07. The School is also indebted to the late Senator William McKinley for a gift of \$5,000 for this building. It is named in honor of Mr. and Mrs. Robert Campbell, long friends of the School. It is a two-story-and-basement building of the Colonial style of architecture, 72×30 feet, solidly constructed of brick, concrete, and steel.

The School had the benefit of much expert advice in planning the arrangement and equipment of the building, designed by C. A. Eckstorm, Chicago, and every care was taken to make it adequate for the purpose. It is finished in red oak, with rubber tile floors insuring the desired quiet. The equipment was furnished by the Library Bureau. The basement contains shelves for storage. The reading room occupies the entire first floor. Here the present library of almost 6,000 volumes is housed. The southwest corner of the room is reserved for the Hazzen Memorial Collection. This gift of over 1,000 volumes was made by Mrs. Isabel Dearborn Hazzen from the library of her husband, the late Henry Wilmarth Hazzen, long a teacher in the School. Another valuable addition of books received during 1925 was the collection given by Mrs. Winona Branch Sawyer, '71, of Lincoln, Nebraska. The upper floor of the Library will be reserved for an art gallery which the School is seeking to develop.

Winona Branch Sawyer House

(1926)

Winona Branch Sawyer House, erected as a residence for the Head of the School, was the gift of Mrs. Winona Branch Sawyer, of the Class of '71. It is built of brick in the Colonial style of architecture in harmony with the other buildings of the group.

Social Life

The private boarding-school has an opportunity that does not come to the public institution—it commands and is likewise responsible for all the students' time. Under these circumstances the extra-curricular activities become second only in importance to the program of the curriculum. Social education is part of college training. The activities of the various student organizations not only supply adequate diversion, but give valuable training in social co-operation and in the worthy use of leisure. The social atmosphere of the School is wholesomely democratic. Every girl is expected to use and develop for the general benefit whatever social gifts she may possess. Appropriate dress, a pleasing manner, poise, graciousness, entertaining conversation, ability to appear at ease before an audience, are as much a part of the School ideal as are scholastic attainments. With the assistance of class counselors the students give class parties, lunches, dances, bazaars, teas, lawn fêtes, concerts, and plays; they plan menus, arrange decorations, devise costumes and stage properties. Occa-

CALENDAR FOR 1927 AND 1928

sionally they write their own plays. A Victrola with many valuable records aids in the cultivation of an appreciation of the best in music. A motion-picture machine is used both for entertainment and instruction. A series of the better films selected by a committee in charge is presented during the year.

The location of the School is exceptionally favorable for the cultivation of interest in out-of-door life and sports. Golf, tennis, hockey, basket-ball, captain-ball, coasting, cross-country walks, and picnicking are a part of the daily life, contributing to appetite and sound sleep, and laying the foundations for physical health and mental poise.

The Junior College

Why a Junior College?

In the reorganization of the American school system there is a tendency to redistribute the work of the high school and the college, and to include in the period of secondary education the first two years of college work. The new institution, the Junior College, is today doing an increasing proportion of the work of the College Freshman and Sophomore years.

Some students wish to continue their education beyond the high school, but do not desire the more extended type offered by the four-year college. For these students the Junior College, furnishing a practical and thorough training, serves as a completion school.

The tremendous growth of the large universities, resulting at times in overcrowding, frequently renders it advantageous to the student to do the work of the Freshman and Sophomore years in a smaller institution.

The private Junior College combines a safe, comfortable, attractive home life and close association of students and faculty with the high quality and standards of instruction given in the large institutions.

The two years of the Junior College serve as a transition from home into the larger and more complex life of the university. During this period students under guidance grow in knowledge, self-reliance, and in soundness of judgment, and are thus prepared to meet the exacting work and the deeper problems presented by the larger world of the great universities.

Aim of Frances Shimer Junior College

Frances Shimer Junior College is planned to meet the needs of two classes of students:

1. Those who plan to complete the four-year college course, but who wish to take the Freshman and Sophomore years in the socially supervised environment of a private Junior College of high scholastic standards. The diploma of the School admits to the Junior year of all middle western and western colleges and universities.

2. Those who wish to make the Junior College a completion school. To such the Junior College offers cultural literary courses of college grade combined with work in Domestic Science, Music, Art, and Expression.

Admission to the Junior College

Students will be admitted to full Junior College standing upon the presentation of fifteen units completed in an accredited high School. A student with fourteen units may enter on condition. A unit in any subject represents five recitations a week for a school year. No classification is given until the certified

list of credits is presented. A candidate for admission must also present a certificate of honorable dismissal from the last school attended.

Requirements for Graduation

Sixty semester hours' credit (not less than twenty-eight of which should be earned in a single year), with grades averaging 70 or above, are required for graduation from the Junior College. Eight semester hours of English are required of all candidates for the Junior College diploma; the remaining fifty-two hours may be taken in courses selected to meet the needs of the student in transferring to a higher institution, or in work adapted to the particular interests or talents of the individual. (A semester hour is taken to mean the credit earned for a course which meets one period a week for eighteen weeks.)

College girls may not earn more than sixteen hours' credit in a single semester; nor carry more than one extra—Music, Art, or Expression—in addition to sixteen hours of academic work.

Examinations are held at the close of each semester, the questions being approved and the papers corrected by corresponding departments at the University of Chicago. The semester grade is the average of the class and examination grades; the passing grade is 60. A second examination may be taken within six weeks after resuming school work if the average of the examination and class grades is between 50 and 60. No class grade below 50 will be averaged with an examination grade.

A good student who has completed the Junior College course at Frances Shimer School may enter the Junior Class at a college or university provided the work done here is chosen with reference to the requirements of the college of her choice. The following institutions have granted advanced standing to pupils who did one or more years of college work at the Frances Shimer School: Beloit College, Brenau College, University of California, University of Southern California, University of Chicago, University of Colorado, Columbia University, Cornell College, DePauw University, Detroit City College, Drake University, Evansville College, Grinnell College, University of Illinois, Illinois Wesleyan University, Illinois Woman's College, University of Indiana, University of Iowa, Iowa State College, Iowa State Teachers' College, University of Kansas, Knox College, Lake Forest College, Lake Erie College, Leland Stanford, Jr., University, Miami University, University of Michigan, Mills College, James Milliken University, Milwaukee-Downer College, University of Minnesota, University of Nebraska, Northwestern University, University of Oklahoma, Penn College, Pomona College, Rockford College, Rollins College, Shurtleff College, South Dakota Northern Normal School, Sullins College, University of Washington, University of Wisconsin.

Junior College Courses*

English

MISS E. MAY PARKER AND MISS POLLARD

1. ENGLISH COMPOSITION: A study and application of the fundamental principles of composition, and the four forms of discourse. Long and short themes. Personal conferences. Textbooks: Manly and Rickert's *The Writing of English, Handbook of Composition*. Required for graduation from the Junior College. First semester.

2A (1). COMPOSITION: Practice in writing with emphasis on narration and exposition. Text: *Century Book of Selections*. Two semester hours. (2) LITERATURE: A study of the essay and short story, with reference to types, development, and authors. Two semester hours. Second semester.

2B. SURVEY OF ENGLISH LITERATURE: Assigned readings, arranged chronologically, to show the historical development of English literature, with reference to the characteristics of each period. Introduction to interpretation and criticism through assigned readings. Textbook: *Century Book of Readings in English Literature*. Second semester.

NOTE: English 2A or English 2B is required for graduation from the Junior College.

3. SHAKESPEARE: A study of representative plays from the four periods, with an introduction to Shakespearean criticism. Prerequisite: English I, and English 2A or 2B. First semester.

4. BRITISH POETS OF THE NINETEENTH CENTURY: Wordsworth, Coleridge, Scott, Byron, Shelley, Keats, Browning, Tennyson. Second semester.

History

MR. MCKEE, MISS EMERSON, AND MISS MORRISON

1. AMERICAN HISTORY, 1787-1865: Text supplemented by reference work. Weekly papers. Text: Bassett, *A Short History of the United States*. Second semester.

2. ENGLISH HISTORY—PERIOD TO 1603: Supplementary reading in both source and secondary material. Notebook-work and written papers. Text: Terry, *English History*. First semester.

3. ENGLISH HISTORY—1603 TO MODERN TIMES: Continuation of first semester.

4. HISTORY OF ART: Course begins with early Greek art but is based mainly on the painting, sculpture, and architecture of the period of the Renaissance.

*Each course, unless otherwise stated, counts four semester hours for each semester; that is four-sixtieths of the total number of sixty hours required for graduation from the Junior College.

sance and since that time. Instruction to be supplemented by the use of pictures. A notebook and two term papers are required of each student. Text: Reinach, *Apollo*. Offered each semester.

Biblical History

MR. SEITNER

FIRST SEMESTER

HISTORY OF THE HEBREWS (3): The course includes a study of the political, social, and religious development of the Hebrew people from the call of Abraham to the Babylonian captivity. Text: Kent and Bailey, *History of the Hebrew Commonwealth*. First semester.

SECOND SEMESTER

LIFE OF CHRIST: This course is a careful study of the life of Christ, his land, people, times, and his teachings. Texts: Burton and Mathews, *Constructive Studies in the Life of Christ*; Mathews, *Social and Ethical Teachings of Jesus*.

Economics and Sociology

MR. MCKEE AND MISS EMERSON

OUTLINES OF ECONOMICS: Consumption, Production, Money, International Trade, The Labor Problem, Transportation, Socialism, Public Revenues, Expenditures, Taxation. *Outlines of Economics* by members of the Department of Political Economy of the University of Chicago will be used as a basis. First semester. Open only to second-year College students.

I. SOCIOLOGY: Designed to give the student a working system of thought about society, social forces, social control, collective behavior, and social population, race prejudice, poverty, and crime. Text: Giddings, *Elements of Sociology*. Second semester.

Psychology

MRS. MCKEE

The course includes: (1) a brief survey of the problems and methods of psychology; (2) a brief study of the human nervous system and its functions; (3) an analysis of the phenomena of consciousness and behavior, including the processes and laws of mental development. Prerequisite: Physiology.

Text: Robinson and Robinson, *Readings in General Psychology*, with references to other authors, especially James, Judd, Dewey, Angell, Royce, Pillsbury, Thorndike, and Titchener. First semester. Open only to College Sophomores.

THE FRANCES SHIMER SCHOOL

Education

MRS. MCKEE

A survey course including a study of (1) the development of the American school system, (2) the major problems of education, and (3) present-day theories and practices in Education. The purpose is (1) to orient the student in the great field of Education and to prepare for specialized study, and (2) to introduce those who wish to prepare for teaching to the problems connected with the organization and administration of schools. Texts: Judd, *Introduction to the Scientific Study of Education*; Frazier and Armentrout, *An Introduction to Education*. Collateral reading: Thorndike, Cubberly, Dewey, Terman, Bagley, Strayer, Charters. Second semester. Open only to college Sophomores.

Physical Science

MISS WARDWELL

1. GENERAL INORGANIC CHEMISTRY: Text: Deming, *General Chemistry*. Laboratory manual: Deming and Arenson, *Laboratory Manual*. Laboratory fee, \$5.00 each semester. 4 laboratory periods and 3 recitation periods a week. Both semesters.

ORGANIC CHEMISTRY: 4 laboratory periods and 3 recitation periods a week. Text: Cohen, *Theoretical Organic Chemistry*. Manual: Fisher, *Laboratory Manual of Organic Chemistry*. Prerequisite: 1 year-course in General Inorganic Chemistry. Fee, \$5.00. First semester.

Natural Science

MISS PETERS

1. PHYSIOLOGY: This is an introductory course in the study of physiology and includes a study of the circulatory, respiratory, digestive, and nervous systems of the body. The work is partly experimental and partly demonstration. The laboratory manual is the one prepared by the Physiology Department in the University of Chicago. Text: Martin, *The Human Body*. Laboratory fee, \$5.00. Offered each semester.

2. ZOÖLOGY: This course embraces the fundamental principles of zoölogy. Only a few animals, as reviewed from the evolutionary standpoint, are considered. Morphology is co-ordinated with physiology, ecology, and behavior, and serves to illustrate the probable course of evolution. The course parallels Zoölogy I as given at the University of Chicago. Laboratory fee, \$5.00. Text: Hegner, *Introduction to Zoölogy*. Laboratory Manual: Hyman. Second semester.

3. BOTANY: A general survey of the principles of botany. Morphology is studied by means of type forms from the four great plant groups. Ecology, plant physiology, and reproduction are also emphasized. Laboratory fee, \$5.00. Text: Sinnott, *Principles and Problems in Botany*. First semester.

C A L E N D A R F O R 1 9 2 7 A N D 1 9 2 8

4. BOTANY II: Course in Systematic Botany. Prerequisite: Elementary Botany. Laboratory fee, \$5.00. Text: Gray, *Lessons in Botany*. Laboratory manual: Gray, *Manual*. Second semester.

Mathematics

MISS DOWNING

1. TRIGONOMETRY: Trigonometric functions of angles, logarithms, and the solution of triangles. Relations between functions of more than one angle, inverse functions, and trigonometric equations. Text: Wilczynski and Slaught, *Plane Trigonometry*. Prerequisite: Algebra and Geometry. First semester.

2. SOLID GEOMETRY: Lines, planes, and angles in space; a consideration of polyhedrons, cylinders, cones, and spheres, with computation of surfaces and volumes. Text: Slaught and Lennes, *Solid Geometry*. Second semester.

3. COLLEGE ALGEBRA: Algebraic review, progressions, complex numbers, logarithms, combinations and permutations, mathematical induction, theory of limits, theory of equations, determinants, partial fractions, and probability. Text: Rietz and Crathorne, *Introductory College Algebra*. Prerequisite: Algebra and Geometry. Second Semester.

Latin

MISS HOSTETTER

1. CICERO: *De Senectute*; TERENCE: *Phormio*; Latin writing. First semester.

2. LIVY: Books 21 and 22. Selections from Book I. Latin writing. Second semester.

3. HORACE: *Odes*. Outline history of Latin literature. First semester.

4. TACITUS: *Agricola* and *Germania*. Second semester.

French

MISS THOREEN AND MISS HIGGINS

1. FIRST YEAR: Phonetics, grammar, dictation, conversation. Texts: Fraser and Squair, *The New Fraser and Squair Grammar*; Spink, *Le beau pays de France*.

2. SECOND YEAR: Advanced work in grammar and composition. Themes throughout the year. Texts: Labiche et Martin, *La poudre aux yeux*; Fraser and Squair, *The New Fraser and Squair Grammar*; Lavissee, *Histoire de France*; De Sauzé, *Contes gais*; Halévy, *L'abbé Constantin*.

3. THIRD YEAR: Grammatical review. Themes and sight translation throughout the year. Reports on books read outside of class. Texts: François,

THE FRANCES SHIMER SCHOOL

Advanced French Composition; Manley, *Eight French Stories*; Dumas, *La question d'Argent*; Danemarie, *Le secret de l'étang noir*, Loti, *Pêcheur d'islande*.

4. FOURTH YEAR: Composition and themes throughout the year. Reports on books read outside of class. Texts: Molière, *Le Bourgeois Gentilhomme*; Corneille, *Le Cid*; Badaire, *Précis de Littérature Française*; Hugo, *Hernani*; François, *Advanced French Composition*.

Spanish

MISS HIGGINS

1. FIRST YEAR: Grammar, pronunciation, dictation, conversation. Current events from Spanish periodicals. Texts: Wilkins, *New First Spanish Book*; Pittaro and Green, *Cuentos Contados*.

2. SECOND YEAR: Composition and a thorough grammar review. Reading in class and reports on outside reading. Conversation based on Spanish periodicals. Texts: Seymour and Carnahan, *Short Spanish Review Grammar*; Martinez Sierra, *Teatro de Ensueno*; Escrich and Carrion, *Fortuna and Zargaeta*.

Home Economics

MISS FORTNA

The courses offered in this department are planned for two classes of students, those who expect to specialize later in Home Economics and those who desire some fundamental knowledge of household problems.

1. FOODS: A study of foods emphasizing composition and nutritive value in relation to cost; food combinations; preparation and serving of meals; commercial processes; pure-food legislation; special problems such as child diet, school lunch, and special diets; cost of food in relation to the family budget. 3 double laboratory periods and 2 recitation periods a week. Text: Sherman, *Chemistry of Food and Nutrition*. Prerequisite or concurrent: Chemistry. Fee, \$15.00 each semester. Both semesters.

2. CLOTHING I: Construction of garments; study of textiles as to fiber, weave, tests; textile economics; hygiene of clothing; choice and care of clothing. 3 double laboratory periods and 2 recitation periods a week. Text: Woolman, *Clothing, Choice, Cost, Care*. Prerequisite or concurrent: Design. Fee, \$5.00. First semester.

3. CLOTHING II: Advanced garment construction; application of principles of design to costume; use of dress form; study of historic costume in relation to modern dress. 3 double laboratory periods and 2 recitation periods a week. Text: Fales, *Dressmaking*. Prerequisite or concurrent: Clothing I or 1 year of High-School Clothing; Design. Fee, \$5.00. Second semester.

4. DESIGN: Fundamental principles of design and their application to dress, architecture, etc.; a study of line, light and dark, color, composition, proportion,

CALENDAR FOR 1927 AND 1928

and lettering. 3 double laboratory periods and 2 recitation periods a week. Fee, \$5.00. First semester.

5. APPLIED DESIGN: Application of design to materials—paper, cloth, leather. Problems in book-binding, portfolios, block printing, tied and dyed work, basketry, hat boxes, and leather tooling. 4 double laboratory periods a week. Prerequisite: Design. Fee, \$5.00. Second semester.

6. HOME MANAGEMENT: A study of household budgets and accounts; investments and savings; household equipment and its care; schedule of work; upkeep of the home; home laundering; home nursing. 4 recitation periods a week. Text: Taber, *Business of the Household*. First semester.

7. HOME PLANNING AND FURNISHING: A study of historic types of architecture as influencing present-day styles; period furniture; relation of good design in the planning and furnishing of a home artistically and conveniently; house plans. 3 double laboratory periods and 2 recitation periods a week. Text: Robinson, *Domestic Architecture*. Prerequisite: Design. Fee, \$5.00. Second semester.

NOTE.—Foods, Clothing, and Home Management are offered every year. Applied Design will alternate with Home Planning and Furnishing.

THE FRANCES SHIMER SCHOOL

Pupils who complete this course will be recommended by the Illinois State Examining Board to the County Superintendent to receive a certificate to teach in the elementary grades and may be indorsed by the County Superintendent for teaching in the first two years of high school, without examination.

Music

HARMONY: A study of harmony at the keyboard and by written work covering major and minor keys, key relationship, intervals, triads in all forms and their relationship and identification to keys, cadences, all chords of the seventh, the dominant ninth, altered chords, chord progressions in four-part writing, appoggiatura, suspensions, anticipations, passing-tones and chords. Analysis of hymns. Text: White, *Harmony and Ear Training*; Chadwick, *Harmony*. Five periods a week. First and second semesters. MISS ALLYN.

HISTORY OF MUSIC: The course in History of Music covers ancient as well as modern music, with special attention to the development of music since 1700. One recitation each week is devoted to compositions of musicians studied in the preceding four recitations, either in the form of a recital or of analysis, in order to make the results of the course of practical value. Text: Hamilton, *Outlines of Music History*. First semester. MISS WALLACE.

SOLFEGGIO: It is becoming increasingly necessary for vocalists to have a thorough knowledge of sight-singing. This course is arranged especially for vocal students wishing to prepare themselves for soloists, or teachers of music in public schools. It comprises drill in interval and scale singing, time subdivisions, dictation, and part singing. Class recites two lessons per week. First and second semester. MISS WALLACE.

Public-School Music

This course offers an opportunity for comprehensive study of the Theory and Practice of Public-School Music. It is planned for students who desire to prepare for supervising music in the public schools, and for grade teachers who wish to improve the music in their individual grade.

FIRST YEAR: Notation; ear-training; outline of systematic work for first four grades; presentation of the rote song; methods of presentation and development of the different rhythmic and melodic problems; high-school course and glee clubs.

SECOND YEAR: Methods (cont.); study of child voice; art of conducting; relation of supervisor to the grade teacher; continuous practice work throughout the year in the public schools of the city under the direct supervision of the critic teacher.

Music History, Sight-Singing, Harmony, and one year of Voice will be required for a diploma from this department.

Applied Music

Credit, not to exceed 8 of the 60 hours required for graduation from the Junior College, may be given for advanced work done in either Piano, Violin, or Voice (not a combination of the two) with these conditions:

a) Applicant must present at the same time a course in Harmony covering 4 hours a week for 36 weeks.

b) The work in applied music must be of an advanced grade with 1 hour's instruction per week and 2 hours' practice per day for one year.

Speech

MISS BURTIS

There is nothing that denotes a young woman's culture and refinement as quickly as does her speech. It is the purpose of this department to stimulate artistic self-expression and to develop a genuine appreciation for the best in literature.

The following courses, each of which counts two semester hours' credit, are open only to Junior College students:

FUNDAMENTALS OF SPEECH: A course in the principles of speech, including training in the use and cultivation of the voice, and bodily expression as applied to the interpretation of literature.

PUBLIC SPEAKING: A course designed to give practical training in public speaking, particularly types of speaking demanded of the modern college woman in club and community affairs.

LITERARY INTERPRETATION: Study of the technique required to interpret the different literary forms: lyrics, ballads, narratives, monologues; special attention to story-telling. The presentation of one program is required.

EXTEMPORANEOUS SPEAKING: The purpose of this course is to develop in the student poise, confidence in expressing herself before others, and the ability to think on the platform. Individual attention is given to each student's needs.

PLAY PRODUCTION: A course covering the selection, direction, makeup, and costuming of plays. It includes practical experience in the production of plays as well as acquaintance with a large amount of dramatic material.

ADVANCED PLAY PRODUCTION: A continuation of the foregoing, with more detailed study of the technique of acting and directing in reference to little-theater and community groups. Each student is given experience in directing a play.

A diploma in Speech is granted to students who complete twelve hours of work in the department and have one year of private instruction.

The Academy

The courses of study in the Academy include the requirements necessary for admission to the best colleges. Any academic pupil who wishes to prepare for a specified college or university may pursue such studies as are required by that institution; other pupils may select such studies as they prefer, subject to conditions stated below.

Before classification pupils must present an official report from the school last attended, showing courses pursued, grade, and honorable dismissal. Classification will be delayed until a certified list of credits is presented; work done under private tutors will be accepted only on examination.

Requirements for graduation:

* Both units must be in the same language.

A unit is the credit earned for a course meeting five times a week for thirty-six weeks.

Each pupil is expected to carry four subjects; strong pupils may sometimes carry an extra course in Music, Art, or Speech. Physical Education is required of all pupils in addition to the fifteen units mentioned above.

Examinations are held at the close of each semester, the questions being approved and the papers corrected by corresponding departments at the University of Chicago. The semester grade is the average of the class and examination grades. The passing grade is 60; for recommendation to college, 70. A second examination may be taken if the average of the examination and class grades is between 50 and 60. No class grade below 50 will be averaged with an examination grade.

Pupils who desire certification to college from this School must spend at least their last year here, carrying not less than three courses.

One-half unit is allowed for sewing one semester, 10 periods a week. One-half unit is given for cooking 10 periods a week, one semester.

One-half unit in Music may be secured by taking instruction one hour a week for one year, practicing one and a half hours a day, or a unit for two years; in Voice, one hour's practice the first year; one and one-half the second. For two years' work in Speech, or for seven and one-half hours a week one year in Art, one credit is given. Not more than three of the fifteen units offered for graduation may be made up of Music, Art, Speech, Stenography and Typewriting, Cooking, Sewing.

Academic Courses

English

Composition and literature receive equal attention in each year's work. The books studied and the ground covered vary somewhat from year to year. The third year of the work is elective, the other three required for graduation; however, students are strongly advised to take the third-year work. Two English courses may not be taken at once; the fourth-year work may not be taken until the Senior year. Supplementary reading is required in all four years.

MISS PARKER, MISS POLLARD, MISS BURTIS

FIRST SEMESTER

1. FIRST-YEAR ENGLISH: Selections from Irving's *Sketch Book*, Scott's *Lady of the Lake*. Composition, oral and written, with drill in spelling, punctuation, and grammatical usage.

2. SECOND-YEAR ENGLISH: Outside reading of standard fiction and biography. Composition, oral and written. Text: *Literature and Life*, Book II.

3. THIRD-YEAR ENGLISH: Study of classic myths in preparation for reading poetry. In composition, emphasis on oral English. Practice in conducting business meetings, in speaking before an audience, and in forms of speech suitable for various public and social situations. Outside reading individually selected. Science

MISS PETERS, MISS WARDWELL, MISS LUENZMAN

FIRST AND SECOND SEMESTERS

PHYSIOLOGY (1): The course presents in an introductory manner the general anatomy and functions of the human body. It is adapted to first-year students and aims to give a knowledge of the processes of circulation, respiration, digestion, and nervous control. Demonstrations. No laboratory. First semester Text: Martin, *Human Body*, abridged edition.

HYGIENE: After giving a brief summary of the normal activities of the body, the course aims to give reasons and methods for promoting good health in individuals and communities. There is also a practical study of first aid. Second semester. Text: Blount, *Health, Public and Personal*.

PHYSICS (4): Millikan and Gale. Laboratory work twice a week. Laws of Motion; Pressure in Liquids and in Air; Molecular Motions and Forces; Work and Heat Energy; Magnetism; Electricity, Sound, and Light. If taken by college students gives 4 semester hours credit.

BOTANY (3): Andrews. An elementary study of the structure, nutrition, and classification of plants. The principles of plant propagation and breeding, forestry and ecological grouping. Field trips form an important feature of the course.

Mathematics

MISS DOWNING

FIRST SEMESTER

ALGEBRA (1): Slaughter and Lennes. Elementary Course. Introduction to the Equation; Positive and Negative Numbers; Addition, Subtraction, Multiplication, and Division; Squares of Binomials; Graphs.

THE FRANCES SHIMER SCHOOL

PLANE GEOMETRY (2): Slaught and Lennes. Plane Geometry. Rectilinear Figures; Straight Lines and Circles.

ALGEBRA (3): Slaught and Lennes. Advanced Course. Review of Elementary Algebra, with a more complete study of Quadratic Equations, Ratio, Variation, and Proportion; Exponents and Radicals; Progressions; Binomial Theorem.

SECOND SEMESTER

ALGEBRA (1): Simultaneous Equations; Special Products and Quotients; Factors; Quadratic Equations; Fractions with Literal Denominators; Ratio and Proportion.

PLANE GEOMETRY: Measurement of Straight Line-Segments; Areas of Polygons; Regular Polygons and Circles. Original demonstration throughout the course.

SOLID GEOMETRY: Lines, planes, and angles in space; a consideration of polyhedrons, cylinders, cones, and spheres, with computation of surfaces and volumes. Text: Slaught and Lennes, *Solid Geometry*.

The Church School

One of the following courses is required each year of all academic pupils. The classes meet one hour a week. No academic credit is given for the work. The courses have been chosen as particularly suited to meet the interests and the needs of the various groups concerned. These classes are taught by members of the faculty of Frances Shimer School or by teachers furnished by local churches.

FRESHMAN YEAR

SOARES: *Heroes of Israel*. A group of hero studies dealing with the great men of the Old Testament, who by their noble deeds played an important part in the history of Israel, and whose stories inspire right conduct in young people today.

SOPHOMORE YEAR

BURGESS: *Life of Christ*. An introductory study designed to give a clear picture of Jesus and of the scenes among which he lived. In this course the students will use the notebook prepared by the author.

JUNIOR YEAR

CHAMBERLIN: *The Hebrew Prophets*.

SENIOR YEAR

- a) *Women of the Bible*, First Semester.
- b) *Christ in Art*, Second Semester.

Elective for College Students

This course is based on the text, Soares, *How to Enjoy the Bible*.

Opportunity is given to a limited number of students for practice teaching in the School of the Church.

Home Economics and Household Art

MISS FORTNA AND MISS WARDWELL

SEWING: Study of textile fibers and fabrics; fundamental processes in construction of garments; use of sewing-machine and attachments. 3 double laboratory periods and 2 recitation periods a week. Text: Dyer, *Textile Fabrics*. Fee, \$5.00. Credit, $\frac{1}{2}$ unit. First semester.

COOKING: Preparation and serving of foods on the meal-plan basis; planning menus; table service; cost of food; nutritive value of food in relation to health. 3 double laboratory periods and 2 recitation periods a week. Text: *Iowa State College Handbook of Foods and Cookery*. Fee, \$15.00. Credit, $\frac{1}{2}$ unit. Second semester.

Physical Education

The Physical Education Department aims to promote health, teach mastery of the body, improve posture, correct physical weaknesses, and instil ideals of good sportmanship.

A large campus affords opportunity for out-of-door sports in the fall and spring. The nine-hole golf course on the campus is unusually attractive and well kept. The gymnasium, on the ground floor of Hathaway Hall, extends over a space 87×36 feet, with ample light, heat, and shower baths. The seasonal program offers:

FALL: Hockey; tennis; golf; volley-ball; hiking.

WINTER: Basket-ball; gymnastics; folk dancing; low and high organized games; interpretative dancing; hiking.

SPRING: Tennis; interpretative dancing; soccer; golf; hiking.

Every student is required to have some form of physical exercise four periods a week throughout the school year.

Every student is given a thorough physical examination in the fall so that her special needs may be considered in assigning her to classes in Physical Education. A competent physician is in charge of the heart examinations.

The regulation gymnasium suit consists of black bloomers, an all-white washable middie, high white tennis shoes, and black stockings.

Speech

Private instruction in Speech is open to Academy students.

Stenography and Typewriting

The stenographic course is open to both Junior College students and Academy Seniors. It is the aim of this department to equip students with skill in taking moderately rapid dictation and transcribing it accurately. Short-hand may not be elected without typewriting as a concurrent course.

C A L E N D A R F O R 1 9 2 7 A N D 1 9 2 8

STENOGRAPHY (Gregg shorthand): During the first semester the fundamental principles of the system are learned and a small but common vocabulary built up. In the second semester the theory of the shorthand system and the work on vocabulary is continued and is augmented with periods of dictation from business correspondence.

TYPEWRITING: The first semester's work consists entirely in becoming acquainted with the use of the several parts of the machine; acquiring the mastery of the keyboard by touch; developing a minimum speed of fifteen words a minute when writing connected but unfamiliar matter. During the second semester typewriting and shorthand are closely correlated. Three periods a week are given to the transcription of shorthand notes, preceded by class discussions of the typing problems of form, punctuation, and spacing; two periods are devoted to the further acquisition of speed in typewriting from ordinary copy.

Department of Music

Piano Course

MISS SCHUSTER, MISS WALLACE, MISS ALLYN, MISS SEIDEL

This course, which pupils of average musical ability may, by taking two half-hour lessons per week and practicing three or four hours per day, complete in three years, is divided into six grades. In every grade a sufficient number of pieces will be given to insure proper development of style. The course for graduation also requires sufficient work in accompanying and transposing to render the pupil proficient in both.

Students may enter any grade for which they are found qualified. Some previous knowledge of the rudiments of music is expected of pupils entering the regular course. Superior advantages, however, are provided for those beginning music.

GRADES I AND II

Major and minor scales with corresponding chords and arpeggios and finger technique; studies by Duvernoy, Opus 176 and 120; Krause, *Trill Studies*; Loeschhorn, Opus 66, Book 1; Heller, Opus 47; Lecoupey, Opus 26; Bach, little preludes and two-part inventions; sonatinas; easy sonatas by Mozart, and Beethoven, Opus 49, Nos. 1 and 2; also melodious pieces of corresponding difficulty.

GRADES III AND IV

Scales continued; chords and arpeggios of the dominant and diminished sevenths; studies by Biehl, Opus 60 and 66; Loeschhorn, Opus 66, Books 2 and 3; Czerny, Opus 299; Hasert, Opus 50; Heller, Opus 45 and 46; Bach, three-part inventions and French suites; selections from Händel, *Album*; sonatas continued; Mendelssohn, "Song without Words"; modern composers.

GRADES V AND VI

Scales in double thirds; octave studies and advanced technical work; studies by Czerny, Opus 740; Cramer and Clementi, *Gradus ad Parnassum*; Bach, English suites and clavichord; Schumann's compositions; Weber's works, and pieces by Bendel, Godard, MacDowell, Liebling, Loeschhorn, Chopin, Henselt, and Grieg; Beethoven's sonatas; Bach's preludes and fugues.

Advanced Course

For those who desire to continue in the School and carry their work to a greater degree of attainment an advanced course has been arranged, as follows:

Czerny, *School of the Virtuoso*; Kullak, *Octave Studies*; études by Neupert, Seeling, Foote, and Moscheles; sonatas by Scarlatti, Weber, and Grieg; con-

certain in D minor, Mozart, and in C major, Beethoven; compositions by Raff, Reinecke, Liszt, Rubinstein, Schumann, Sinding, Debussy, and others; Beethoven's more important sonatas.

Violin Course

MISS SEIDEL

GRADES I AND II

Particular attention is given to position, the manner of holding the violin and bow; also to good intonation and tone quality. Hohman Books I and II; Mitchell, easy pieces; Wohlfahrt, Opus 45, Book I; Kayser, Opus 20, Book I; Mazas; Pleyel duos; Ries, Book I; pieces of corresponding grade.

GRADES III AND IV

Wohlfahrt, Opus 45, Book II; Kayser, Opus 20, Book II; Ries, Book II; Dancla, *Airs Variés*, Opus 89; selected pieces.

GRADES V AND VI

Hans Sitt or Schradieck scales; Sevcick, *Changes of Positions*; Mazas, Opus 36, Book I; Kreutzer, to double stop; études; Casorti, *The Technique of Bowing*; selected sonatas and concertos; suitable pieces; ensemble work.

Advanced Course

Mazas, Opus 36, Book II; Herman, preparatory double-stop études; Kreutzer, double stops; Fiorillo; Rode, caprices; Rovelli; Ganinie; Dancla, Opus 100. More difficult concertos and sonatas and pieces of corresponding grade.

Vocal Course

MISS WALLACE

The first and most important consideration in voice-building is the establishment of correct breathing. This fact will be emphasized throughout the entire course.

GRADES I AND II

Exercises for tone production; exercises in breathing; elements of notation; exercises in vocalization and solfeggio; sight-singing.

GRADES III AND IV

Exercises in vocalization and solfeggio continued; exercises for articulation in English and Italian; studies by Sieber, Concone, Vaccai, Lamperti, Marchesi, and others are used; arias of moderate difficulty, ensemble singing.

GRADES V AND VI

More difficult studies in phrasing and expression; exercises for flexibility, embellishment, etc., at the same time building and memorizing a repertoire of church, concert, and operatic music.

THE FRANCES SHIMER SCHOOL

Advanced Course

The continuation of first course, with more finish and breadth of style; greater familiarity with the standard operas and oratorios; Bordogni's 36 *Vocalises*, Books I, II; exercises, studies, and pieces of noted difficulty; proficiency in sight-singing; a knowledge of piano music equal to third grade. The final examination will include the rendering of a recital program memorized.

Requirements for Graduation in Department of Music

Completion of Grade VI in Piano, Violin, or Voice.

A public recital, the program to be selected by the instructor to suit the style and ability of the player.

The following Academic work:

Department of Art

MISS BAWDEN

Pupils are not received for less than three hours a week.

GRADES I AND II

Chiefly pencil and charcoal work from the simpler casts, in outline and general light and shade, together with studies of familiar objects from still-life. Colored pencils, chalks, and pen-and-ink drawing. A pencil sketch class gives all students an opportunity to draw from nature, still-life, and life.

GRADES III AND IV

Drawing from the more difficult antique casts, with shadows carried farther. Pictorial composition. Outdoor sketching in various materials. Pastel and pen-and-ink work. Decorative work including enamels, gesso-craft, stenciling, fabric painting, and block printing. Studies from nature and still-life in monochrome and color.

GRADES V AND VI

Sketching and more difficult cast work. Water-colors and oils, from advanced still-life, and arrangements of fruits and flowers. Outdoor, interior, and life drawing and painting.

Advanced Course

Those who have completed the regular course and desire to continue are given a year of advanced work, consisting of original studies in all mediums. These are expected to show the pupils' ideas of composition in form, design, and color. They are to be landscape from nature, portrait, still-life, full-figure.

This course requires a minimum of three hours' instruction daily.

Equipment

The Studio is large and well lighted and is supplied with a collection of casts, pottery, antique brass and copper, draperies, studies, designs, and current art magazines.

Expenses

The sum of \$10.00 must be deposited when a room is engaged either by old or new pupils; no room will be reserved unless this deposit has been made. This deposit will be deducted from the bill of the first semester, or, if the pupil gives up the room before August 1, the deposit will be returned on request.

It is understood that all house pupils enter for the year unless written arrangements to the contrary are made on entering.

If bills are desired before payment is made, they should be asked for long enough in advance to have drafts in the hands of the School at the time of registration, on the day of opening. In the absence of a bill in advance, the regular fee, \$390.00, for home and tuition must be paid at the time of registration at the opening in September.

When a student is compelled to be absent from the School by protracted illness of the student herself covering six weeks or more during term time, the loss for the time after the room is surrendered may be shared between the pupil and the School. *No money is returned to pupils dismissed or suspended.*

Pupils who are absent from the first recitation after the vacation in the winter or spring will be charged \$5.00.

No pupil whose bills are not fully paid may receive a diploma.

The School offers a small number of worthy pupils of limited means opportunity to reduce their expenses by doing clerical work or work in the dining-room. Prospective students who seek such aid should write to the President, stating what part of the regular bill it is essential that they earn, and what kinds of work they are able and willing to do.

General Information

Residence halls.—Students from out of town are required in all cases, unless residing with near relatives, to occupy rooms in the school buildings. Students occupying such rooms avoid many distractions, come into very close contact with the life of the School, and are more likely to regard the school work as the one thing demanding their best efforts. They are led to cultivate a healthy spirit of self-reliance, and to gain from their fellow-students an enthusiasm for study. Not infrequently the best and most lasting results of school life are derived from its associations.

Rules for house pupils are furnished on entrance. In general, they provide for such order and behavior of the pupils as would be expected in a cultured home. The students in the Junior College have student government under a constitution adopted by themselves and approved by the Faculty. Academy pupils are free within the grounds in recreation hours; when outside the campus they are chaperoned by teachers.

The rooms are designed to be occupied by one, two, or three girls; the majority being planned for two students. An extra charge is made for one pupil in a room. All rooms are furnished with single beds (3'×6'3"), chairs, study tables, chests of drawers, and window shades. The windows are 6×4; the tops of the chests of drawers, 38×19. Students furnish *rugs* (if desired), *bedding, curtains, towels, napkins and napkin ring, knife, fork, and spoon* (for use at spreads and picnics), *regulation gymnasium suit consisting of black bloomers, an all-white washable middy, high white tennis shoes, and black stockings.* It is also recommended that they provide themselves with a *hot-water bottle, an umbrella, and heavy walking shoes.*

The girls are required to care for their own rooms. On school days the rooms must be clean and in order by eight o'clock when recitations begin. Personal instruction is given the girls when necessary.

Trunks are not allowed in the pupils' rooms, but are stored and are accessible.

As a precaution against fire, stoves of all kinds—oil, alcohol, gasoline, and chafing dishes—are prohibited in pupils' rooms. Pupils are not allowed to keep lamps, candles, or matches in their rooms, nor to use electric devices.

Health.—Conditions at the School have been designed to safeguard the health of the pupils. Upon entrance every girl is given a careful physical examination. Only students in good health are received; girls who need the constant care of a physician are not desired.

Students who are ill are required to go to the Infirmary, which is in charge of the resident trained nurse and her assistant. In cases of serious illness the pupils employ a special nurse and physician. The resident nurse cares for

minor ailments, and in addition carries on an educational program in the maintenance of good health.

The food furnished by the School is wholesome and abundant. Parents and friends will assist in preserving the health of the pupils if they will not send food or confectionery.

Dress.—The School does not dictate definite rules of dress, since dress is expressive of individuality. It is suggested, however, that in the selection of clothing, two standards be observed: suitability and simplicity. For school wear, one-piece dresses of material suited to the season have been found satisfactory. The conventional dinner dress has no place in the school wardrobe, although pupils do not wear their school dresses to dinner. One or two simple evening dresses for wear at the School parties are essential. Millinery is not an important problem. A simple tailored hat of becoming shape is all that is required. The same rule of simplicity and suitability applies to shoes. High heels are out of place on the campus except for evening. For everyday and walking, plain, well-made sport oxfords with low or medium heels are best.

Clothing which must be sent to the laundry should be plain. An extra charge will be made for all pieces difficult to iron, and for laundering blouses between December 1 and April 1. Laundry must be marked, in all cases, with woven names (not initial letters) made by J. & J. Cash Company, South Norwalk, Connecticut. Write them for prices, giving the name of the School.

Absences.—Students are expected to attend all school exercises. Parents are requested not to ask that their daughters be excused before the work is entirely completed at vacations; such requests are rarely granted. The full work continues to the hour of closing, and full work begins at the hour of opening after winter and spring vacations.

No student may under any circumstances leave town without permission previously obtained from the Dean of Women on written request of the parent. Reasonable week-end absences are allowed. Such requests should be addressed directly to the Dean of Women and in ample time for correspondence. Frequent absences interfere with the studies and health of the pupil concerned, and also disturb the work of other pupils, seriously diminishing the efficiency of the School.

Guests.—Parents who come to inspect the School, or who bring their daughters to the School, are particularly welcome. When notified in advance, the School makes arrangements for the entertainment of friends of pupils not to exceed three days at one time. At Commencement, only guests of Seniors can be received. Pupils are not excused from any regular school duty on account of guests, and are not allowed to go to the railway station to meet guests or see them depart.

THE FRANCES SHIMER SCHOOL

Religious life of the School.—The intention is that the influences of the School shall be those of a refined Christian home. Daily chapel services are held, attended by all teachers and pupils. A weekly prayer-meeting is sustained by the Young Women's Christian Association. All pupils go to the Baptist or Methodist church, and Academy pupils attend Sunday-school. Sunday evening a Vesper Service for the members of the School is held, led by the President, by one of the teachers, or by the Y.W.C.A., and once a month by an outside speaker. Parents are asked to co-operate with the School in keeping Sunday free from visiting, to the end that the rest and quiet and religious exercises of the day may not be interrupted.

Miscellaneous.—Books, stationery, music, art materials, toilet articles, inks, may be purchased at the School Book Store at current prices. These articles may be charged, and an account will be rendered three times a year.

Parents are urged to give their daughters a monthly allowance which should cover all their expenditures while at school, extra laundry, and general shopping. A college branch of a local bank is maintained for the benefit of student depositors.

The use of the telephone is limited, in the interest of pupils. All conversations are limited to parents and during recreation hours.

All express and telegrams should be sent in care of the School and should be prepaid to avoid delay.

Special requests of any kind should come from the parent to the President direct, not through the student. Parents should not consent to requests by pupils, involving suspension of School regulations, until written request has been made to the President directly and answer has been received.

All secret societies are forbidden in the School.

Student Organizations

Believing that direction may be given in the worthy use of leisure and that girls should be given an opportunity to effect social contacts in groups voluntarily organized to pursue common interests, club life is encouraged. Membership, though not compulsory, is strongly urged. The meetings of the various clubs are held on the first Saturday evening of each month, and are a combination of study and social gatherings.

Young Women's Christian Association

This organization maintains a weekly prayer-meeting, encourages social life among the pupils, sends delegates to national students' gatherings, takes charge of Sunday evening meetings occasionally, and seeks in various ways to stimulate religious interest among the pupils and interest in philanthropic work in the world.

Travel Club.—The aim of the Travel Club is to acquaint the members with places of interest abroad. The Club is this year outlining a trip to Europe. Each meeting is spent in the study of one country to be visited, with discussions of the points of interest which a traveler should see.

Poetry Club.—The members of this Club devote their meetings to the reading of poetry which appeals particularly to certain members or the leader, and to discussions of the work of poets not studied in literature classes.

THE FRANCES SHIMER SCHOOL

Green Curtain.—A dramatic Club, organized to create interest in good drama. Meetings are held for the reading and discussion of plays. The Club presents one or more plays during the year.

Current Fiction Club.—The purpose of this Club is to keep the members informed as to the content and value of recent fiction, the books being selected according to the tastes of the members.

Arts and Crafts Club.—The purpose of this Club is to acquire skill in making useful gifts.

Fori Sociæ Sorores.—It is the purpose of the Latin Club to become familiar with club organization and procedure, and to enjoy the Latin language and Roman customs in some of their lighter aspects.

Le cercle français.—The members of the French Club are organized for the study of French customs, games, songs, and plays.

The League of Women Voters.—This organization aims to arouse interest in good citizenship and the study of political and social questions of the day so that the members may become intelligent voters. They are organized under the constitution approved by the State League of Women Voters.

Mathematics Club.—The purpose of the Club is to stimulate interest in mathematics in some of its practical and scientific applications.

Glee Club.—This organization is open to Academy students interested in singing. *College Chorus Club* is open to college students interested in singing. It is the purpose of these two clubs to extend acquaintance with and to create appreciation for good music, and to furnish opportunity for musical expression. The clubs appear on various School programs during the year and present a joint recital.

Needs of the School

Frances Shimer School has no resources except the income from pupils and from the estate of its founder, Frances Wood Shimer. The present endowment income barely meets the requirements of the North Central Association of which the School has been a member continuously since 1909. The first great need, therefore, is for increased endowment. In 1926 an Expansion Program was inaugurated with the hope of raising \$250,000. The Education Society of the Northern Baptist Convention has offered to give \$25,000 contingent upon the whole amount being raised. Up to January 1, 1927, nearly \$60,000 had been subscribed.

The next great need is for a well-equipped, modern gymnasium. Moreover, the growth of the School is checked by the lack of residence halls. Applicants for admission have been refused for years for lack of space.

The School has no indebtedness of any kind. All gifts will be used for the purposes indicated by the donor or applied to the improvement of instruction or equipment of the School. Gifts may take the form of contributions to the permanent endowment fund, of scholarships, or additions to material equipment.
